German

# Roman Advancements

- Using pages 26-28 in your text book you will summarize Roman Advancements in four areas: Engineering, Architecture, Art, and Philosophy
- Label the four advancements on your graphic organizer: Engineering, Architecture, Art, and Philosophy (Write them in an interesting or creative way – outlining always looks nice!)
- Summarize in sentences or using bullet points the contributions that Romans made in these areas. (Use your best printing or handwriting)
- Draw a color picture or trace a picture and color it to represent each Roman advancement.
- In the center box draw a picture that you think represents the Roman Empire.
- Glue your paper to the construction paper provided and write your name, date, and period on the back of the construction paper in the upper right hand corner
